

WEDNESDAY WEB SITES OF THE WEEK:

October 4, 2006

By Angie Corritone, Hidden Hills Elementary

“The important thing in science is not so much to obtain
new facts
as to discover new ways of thinking about them.” ~ Sir
William Bragg

Sci For Kids

<http://www.ars.usda.gov/is/kids/>

Another adorable site – You can spend all day just browsing.... “Taste Like Chicken?” and “Fill er Up with Soybeans and Corn, please.”

The Yuckiest Site on the Internet

<http://yucky.kids.discovery.com/flash/index.html>

Bad Breath, Spit, Ear wax, and, well... you can look at the rest yourself.

Lawrence Hall of Science

<http://www.lhs.berkeley.edu/kids/kidshome.html>

Activities like “Build a Fish” make kids apply what they are learning to the real world.

Dragonfly

<http://www.units.muohio.edu/dragonfly/index.htmlx>

Cute for elementary students and catchy topics like “Baseball in Space” and “Small & Tall.”

Exploratorium Online Activities

<http://www.exploratorium.edu/explore/online.html>

You can get just as lost here as you can in the real museum! Best clicks: The Pickle Lab (Food), Your Weight on Other Worlds (Observatory), and Post Card Exhibits (Seeing).

Ask a Science Expert

<http://www.k12science.org/askanexpert.html>

Finally – a comprehensive list of places to find experts on a variety of science topics! Have fun!

Science Fair Theme Page

http://www.cln.org/themes/science_fair.html

List of links about Science Fair ideas... TONS!
