TITLE: Chants for Learning
AUTHOR: Pasco and Kennewick School Districts, Washington
URL: <http://www.psdi.org/glad/chants.htm>

NOTES: Using music and rhythm in the classroom (and beyond) can be a powerful technique for helping kids understand new concepts. This website shares many chants (familiar melodies with words that have been changed) that other teachers have already created. They can be used in the classroom as-is or modified to meet your own students' needs.
