

WEB SITE OF THE WEEK
ALGEBRA ANTICS for ALL AGES

By Angie Corritone, Hidden Hills Elementary School, Nov. 2008

AUTHOR: Cynthia Lanius (click on the link at the top of the page to learn more about her)

URL: <http://math.rice.edu/~lanius/Lessons/index.html>

ABOUT:

Listed as one of the top 101 web sites for K-8 educators, this simple collection of “puzzles” offers something for everyone.

COOL CLICKS:

MUST try the 2 different “**Calendar Fun**” activities (3rd grade and up) – kids love these mental math “tricks” to play on others!

<http://math.rice.edu/~lanius/Lessons/calmore.html>

Pattern Block Fractions (K-2) - helps connect tangible objects to learning fractions:

<http://math.rice.edu/~lanius/Patterns/index.html>

The Hand Squeeze (Kinder and up) – an innovative way to build teamwork and math skills at the same time!

<http://math.rice.edu/~lanius/Algebra/hndsqa.html>

The Million Dollar Mission (2nd grade and up)
