

WEBSITE OF THE WEEK

By Angie Corritone, Hidden Hills Elementary School, Oct. 2008

TITLE: Bring K-12 topics home thru Homework Help

AUTHOR: Discovery Education

URL: http://school.discoveryeducation.com/homeworkhelp/homework_help_home.html

NOTES: This site is designed to support students' learning at home, but could certainly be applied in the classroom as well. Well-organized videos and tutorials on almost every subject imaginable within the curricular areas of Math, Science, English, and Social Studies. Also additional features in foreign languages, health and technology, among others. Interactive activities for older students are noted at the bottom of each subject area page as well.

COOL CLICKS:

English Resources – listed by grade-level
