

## WEBSITE OF THE WEEK THE "WRITE" IDEA

By [Angie Corritone](#), Hidden Hills Elementary School, Sept. 2008

- TITLE:** ReadWriteThink
- AUTHOR:** International Reading Assn. & the National Council of Teachers of English, published on the Thinkfinity site
- URL:** [http://www.readwritethink.org/student\\_mat/index.asp](http://www.readwritethink.org/student_mat/index.asp)
- NOTES:** Choose from over 50 online activities to support writing, reading, grammar, and creativity. Well-done, simple, and easy to use. A great tool for all students. Especially empowering for kids who may be anxious about the physical act of writing on paper, and/or prefer to express their creativity at a computer. Includes a generous lesson plan database.

### CURRICULUM CONNECTION:

These are great to make available at a computer learning center in the classroom to support a topic of study. Students can work independently or collaborate with a partner. They can be used alone or in conjunction with standards-based ReadWriteThink lessons that are linked directly to them (no searching needed).

### COOL CLICKS:

NOTE: these are just my favorites. Check out the other 50!

K-2:	3-5:
<ul style="list-style-type: none"><li>• ABC Match</li><li>• Construct-A-Word</li><li>• Word Family Sort</li><li>• Acrostic Poem Creator</li></ul>	<ul style="list-style-type: none"><li>• Shape Poem</li><li>• Postcard Creator</li><li>• Bio Cube (report guide)</li><li>• Circle Plot Diagram</li></ul>
